Lead Story Headline

Advantage Business Systems hosted it’s third annual Nifty Ninety-Day Promotion. The contest kicked off in January 2009 with final points tallied on April 25th. Of the 17 people company-wide contest there was a strong turnout of 7 who chose to participant with the event seeing an induction into the ABS 2009 Eagle Club.

The ABS Nifty Ninety is an annual 90 day program to highlight actions which encourage and cultivate talents used in service to God and man in the office, community, and home. Zig says “What you get by achieving your goals is not as important as what you become while achieving your goals” Reading and listening to healthy, thought provoking, positive attitude material counted for

“Points” in the promotion. In addition to nuggets of truth the points achieved yielded cash for all seven who reported their efforts.

Eagles Soar, Flying High, Able to look down at food of their choice

Demonstrated by strong participation in the 2009 Nifty Ninety The People of ABS want “Our Customers to feel confident that

they made the right decision when they chose to do business with us”. The People of ABS, Our Customers, friends, and family saw the effort and desire to improve amidst busy schedules including last minute changes, computer based training, new challenges, factory schools, technology advancements, personal crisis, sales quotas, projects, the ABS Spring Turkey Trot and the like.

Annual emphasis and recognition on personal growth has enhanced the work environment, prepared the team for success, and ensured the ABS of the future to be one that all The People of ABS will be warmly proud to be called an important part.

Cash ‘n Truths to Share

Participation Awards Day was a festive event. Points had been earned and cash was handed out! One contestant, William Scott, earned the 50 points necessary to be inducted into the ABS 2009 Eagle Club. He will enjoy local cuisine from either Bravo, Sal & Mookies, and/or Broad Street.

+ This year several participants shared fundamental truths they learned in their study. One shared “Actually hearing the words I speak and examining the thoughts that enter my mind; this is important. If I continually put negative or weak thoughts and words into my brain that is what

to expect to get out of it.

Yet another shared how” when I now face unsavory tasks I find myself thinking that I should just go ahead and eat that frog!”

Meaningful advantages were earned and shared.
